

TEENZ

Logline

Monster teenagers live their everyday lives — falling in love, navigating friendships, and finding themselves in a world filled with magic, mystery and adventure.

Characters

Pinky

Pinky is a popular catgirl into fashion and partying. She's an incredibly romantic and open person who dreams of finding true love. She's smart, energetic and confident.

Despite this, she cares too much about popularity. She is often selfish and arrogant and has to find a way to become a better person. She was raised by her mother like a princess, and sometimes completely forgets about other people's feelings. But she has a good heart, and as any teenager - it's all about learning!

Alvin "Luvboy"

Luvboy is the most popular guy in school, and Pinky's first boyfriend. He seems confident and cool, but in reality he's a sensitive guy who is even more romantic than his girlfriend (and later ex-girlfriend) Pinky.

Because he always has to maintain an image of a popular guy, he often feels panicky and depressed, but he is too afraid to show it to anyone else. He has to confront his doubts about himself and grow into the person he truly is, rather than the person he wants people to see.

Characters

Greeny

Greeny is Pinky's tomboyish, energetic best friend. She is sly but lazy, using her quick wits not for studying, but for sneaking food into class.

She doesn't know who she is yet, relying on Pinky to define herself. She likes same boys Pinky does and follows her on every adventure. She has to find her own voice.

She likes Kid, but doesn't realize it yet, as with many things in her still carefree life.

Cody “Kid”

Kid is chill and carefree, without a worry in the world except finding someone to prank and searching for the best burger joint in town. Kid is the life of the party, and a people person.

He is completely irresponsible, but even Kid has to grow up somehow. Who knows, maybe a crush on Greeny he doesn't quite know about yet will force him to rethink his ways of life?

Characters

Belze-Bob “Bully”

Demon-like mean guy who enjoys bullying people. He is intimidating and direct, and everybody fears him. But he has another side. Soft, sensitive, artistic and possibly bisexual.

If Luvboy hides his sensitive side with coolness, Bully hides it with anger and meanness. He doesn't even realize that people will accept him for who he is only if he wouldn't hide it. He is terribly scared of showing people his heart and being rejected for it.

Wiccy “Nerd”

Smart, nerdy girl who will burn the entire school to the ground if she gets anything lower than an A+. She struggles with friends and romance due to her social ineptitude. She wants friends, but doesn't know how to get them except by being the smartest girl in class. Other teenz rely on her to get answers for tests, and deep down, Nerd knows that's the only reason they hang out with her.

Bully needs to learn how to show his soft side, but Nerd has to learn the value of being strong and assertive and to never let other people use her.

Characters

Miranda Demilune\ Ms.Demilune “Teacher”

Teacher is a mean, nervous witch-like woman who seems to be tired of school and children. She makes their lives harder and doesn't get along with anyone except Nerd.

But all of this is due to the fact that she's lonely and tired. Even with her mean demeanor, she would NEVER give up on any student.

Ninelle “Creepy”

Creepy is a zombie girl who arrives in the middle of the season. She is the complete opposite of Pinky - awkward and unpopular (even scary to the other teenz) but passionate, kind and friendly.

She is an introvert who lives in her own little world and doesn't realize when she does something socially unacceptable. But she never worries about it, and she truly believes that she can find friends just by being who she is. Perhaps she even teaches the others how to be better people.

Creepy has a bit of a problem saying “no” to people. She was raised by a single mom, Spooky, a loving but irresponsible parent. Sometimes Creepy just wants to be a kid, but is forced to be the adult in her family.

Characters

Larry “Dorky”

An annoying boy who is obsessed with Pinky. He is smart but socially clueless. He treats women only as objects for love. He will face many changes (including turning into a werewolf) and learning how to treat girls like humans (or monsters!)

But for now, he is just a side character...

Camilla “Mermaid”

A mysterious girl who arrives at the end of season. How will she change the life of the teenz?

The World

Z-ville

Teen-Z City is a small but lively city perfect for any teenager looking for friendship, adventure and, of course, LOVE.

Teen-Z City is full of beaches and grim graveyards, cozy cafes and mysterious mansions, theme parks and creepy castles.

What's not to like? It's like sunny city with a nice view combined with atmosphere of Twin Peaks.

School “Moonstone Academy”

All our teenz are classmates learning magic in the School. Like the city itself, it combines typical school experiences with mysteries not unlike Hogwarts. Who knows what secrets the school keeps? Maybe a portal to another dimension or a secret door to a luxury restroom only for teachers? OR maybe even romantic “P+L” scratched on the locker. Does it have magical properties? Well, if you consider LOVE magical...then probably yes.

The Story

Teen-Z follows the lives of magical teenagers who fall in love and have lots of other adventures.

The first season of Teen-Z concentrates on Pinky and her desperate attempts to find a perfect boyfriend for herself.

In the process of the story Pinky changes several boyfriends and loses almost all her friends and she has to face the harsh reality that in her pursuit of love, she forgot to be kind and respectful of other people.

Through the help of the weird and awkward new girl Creepy, Pinky has to reinvent herself and learn how to be a good person.

Other Teenz go through many hardships as well - Luvboy struggles with depression due to break-up with Pinky, Kid gets himself into every bad situation possible, and together they have to face the biggest school test of the year which, incidentally, may destroy the entire world. School, right?

All of this combines with magic - love potions, body swaps and crazy time loops created by a cat.

But teenagers remain teenagers no matter what Even when the world is in danger, they still think about love, friendship, and growing up.

Episode Structure

Teen-Z is a half vertical half horizontal show. While almost every episode can be watched by itself, the arc of the season follows Pinky as she goes on magical adventures that end up changing her as a person/monster, impacting her relationships with the other characters.

Next seasons broaden the cast of characters, concentrating more and more on their lives and character arcs.

Plans for the second season

Mermaid comes at the end of the first season, completely changing everything for the second season. Pinky has to compete with her for being the most popular girl in school and for Luvboy's attention.

While Mermaid competes with Pinky, she also slowly falls in love with Bully. Kid and Greeny realize their feelings for each other. Lonely Nerd is on a quest to find friends, eventually becoming best friends with Creepy. Annoying boy Dorky reveals his mysterious ability to turn into a werewolf. Unicorn brothers arrive at the end of season.
